YARN ARCHITECTURE

With WoolWench - At Dreams Come True Farm!

A Dream come true for WoolWench! Finally a visit to the Farm AND a magical day of fiber play. Join us for Yarn Architect Training, multiple plying techniques and layering, learn my special silk hankie wrapping, wrapped cabling, my sideways NPLY Mega-stacks, and the principles of multi-plying so you can go home and continue the mad experiments! I will also give a talk on my dyeing techniques and bring some worksheets for you to take home so you can try these ideas out at your leisure.

Additionally, I have a cunning plan for some special surprise challenges for the group, we get cooperative and make stuff together.

Location: Hosted by Pam Blasko at Dreams Come True Farm -Oxford Farm Country, CT (USA)
